TUCK'S POST CARD

CARTE POSTALE

The Harbour of Hong Kong is one of the finest and most beautiful in the world. Having an area of ten miles, with its diversified scenery and varied shipping it presents an animated and imposing spectacle. It consists of the sheet of water between the island and the mainland, shelt-red on all sides by lofty hills, formerly bare, but gradually becoming clothed with young forests. The approaches to the harbour are strongly fortified.
